

Paper Embroidery with Wendy Lee

1. Push needle up through hole-tape thread end to back of shape
2. Push needle down through hole, skipping several holes-the more holes you skip, the wider the border
3. Push needle up through the next hole
4. Push needle down through the next hole on the other side where you started
5. Push needle up through the next hole
6. Push needle down through the next hole on the other side

Repeat pattern until you get around the entire shape. Note: you will pass the needle thru each hole twice to complete the pattern.

Black= first time through both holes

Red= second time through 1 hole

Blue= second time though both holes
